

Lewis Five MotorSports is a family owned and operated custom prototype and design facility.

With the experience of myself, my wife and our three daughters we will continually strive to keep the edge with the most updated product quotable to the market, while putting customer satisfaction and service above all.

Our goal for **Lewis Five MotorSports** is to surpass its competitors with quality, integrity and personalized customer service. The work created and designed by this company is soon to carve a name for itself within the public eye.

I have every confidence and will always continue to surround **Lewis Five MotorSports** with only the best in the business with every aspect.
